

DAC 2019 | Las Vegas, NV | June 2-6

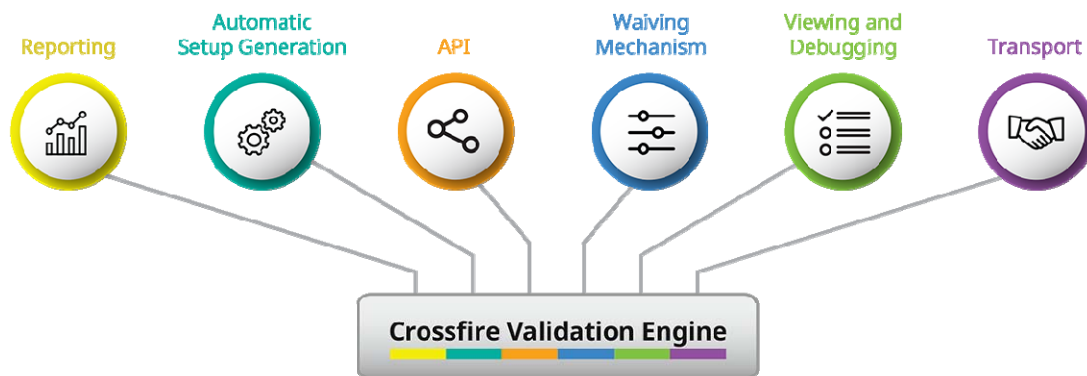

We would like to invite you to visit our booth at DAC to get the latest update on Crossfire. Fractal at DAC, booth 561

FRACTAL TECHNOLOGIES

TRUST YOUR IP BUT VERIFY

The scope of Fractal Technologies products is to check consistency and validate all different data formats used in designs and subsequently improve the Quality of Standard Cell Libraries, IO libraries and general-purpose IP blocks (**Digital, Mixed Signal, Analog and Memories**). Fractal Technologies offers Crossfire and IPdelta Software Tool Suite.

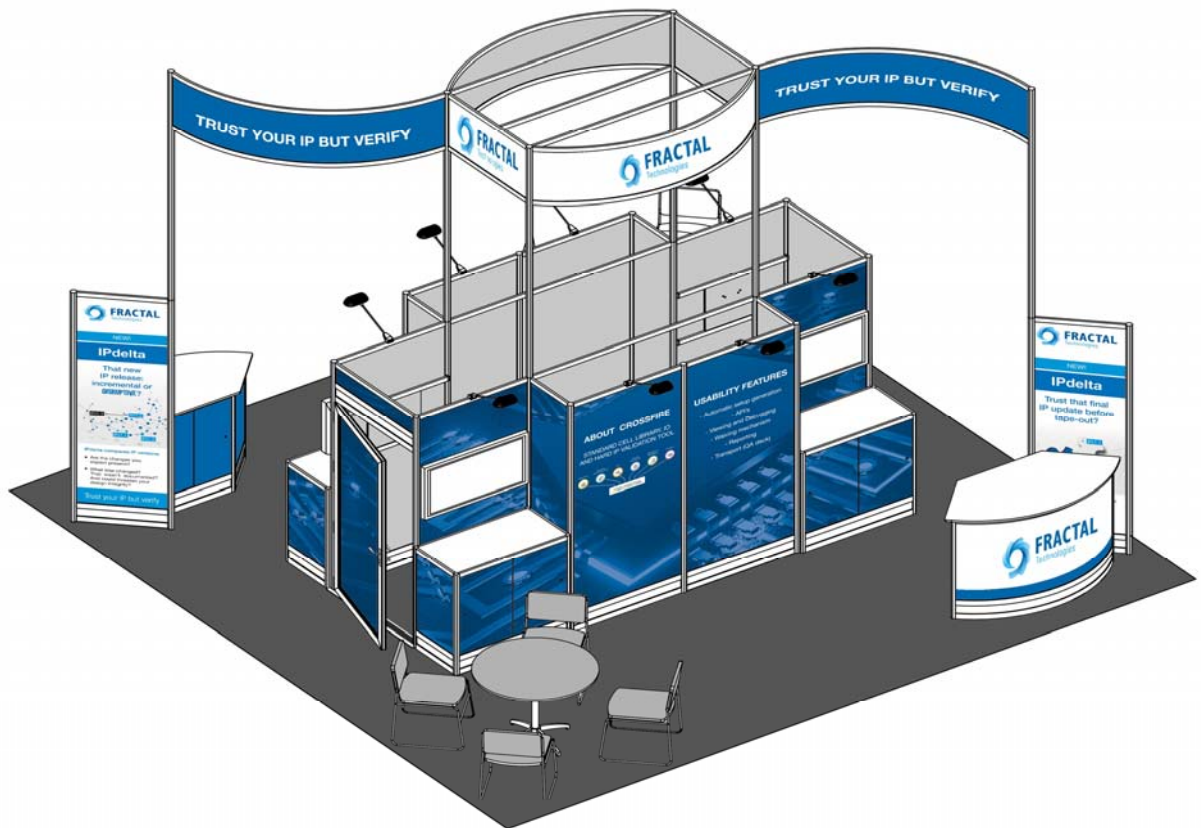

CROSSFIRE, IP validation solution

IPdelta, IP version validation solution

Fractal Technologies will announce a new product at DAC.

Please visit our booth for IPdelta presentation and demo for first introduction to our new product.
